# Grade 1 Catechists

## Guiding Principles

### **Catechists should:**

- Help the children begin to acquire basic spiritual attitudes through the expression of gestures, since children relate readily to the language of symbols and gestures. Provide frequent opportunities for the children to engage in ritual: i.e. processions, offerings, praising, and thanking God in prayer and song.
- Help the children move from a moral stage known as self-interest. Endeavor to awaken in them an awareness of the needs and feelings of others. Invite them to reach out to others in love and concern.
- Help the children acquire an image of God through the stories you read and tell. Images later become more mature concepts and feelings about God. Emphasize the love and providence of God and God's faithfulness by using scripture stories.
- Provide examples of one who is conscious of God's presence in the world, in his or her life; of one who is joyful, and of one who is ever striving to follow Christ more closely. Remember children at this age tend to imitate others.

- Tire easily physically and intellectually.
- Have short attention spans.

### NOTES

- ❖ Pope John Paul II in **On Catechesis in Our Time** encourages the use of advances in pedagogy; biology, sociology as they help us to model God's Divine Pedagogy (teaching us gradually in stages according to our level of development). The above noted information is consistent with such documents as the *General Directory for Catechesis*, the *National Directory for Catechesis*, the *Catechism of the Catholic Church* and other Catechetical Documents of the Church.
- ❖ The above sciences have limitations. While this information does provide references to typical age ranges, children continue to be viewed as individuals and individual differences need to be taken into account.
